THE FEVER STILL RAGING AT MEMPHIS:

MEMPHIS, September 15.—Thirteen new cases were reported this morning. Among the number were John Devot, John Legger, Mrs. Thomas O'Donnell, and two children of Rev. J. J. Peres, a Jewish divine. Seven deaths have occurred since last night, among them Timothy Keefe, a policeman, Gerot Dirnica, and Nancy Pulver White. The weather is clear and cool. The thermometer last night dropped to 51.

The Triple Link.

The annual reports were presented by the Grand Sire, Grand Secretary and Grand Treasurer, and referred to the appropriate committees.

The States were then called and business presented as follows: A number of appeal cases from several jurisdictions; a petition from the Grand Lodge of Switzerland for jurisdiction, with similar powers to that of the Grand Lodge of the German Empire; amendments to the Constitution of the Grand Encampment of California, the Grand Lodge of Arkansas and the Grand Encampments of Connecticut and Delaware; a resolution in favor of biennial sessions, and an invitation from the Grand Lodge of Ontario to hold its annual session of 1880 at Toronto.

Recess was then taken.

Dedication of a Cathedral.

LYNCHBURG, Va., September 14—The new Catholic church just completed in this city was dedicated to-day with the usual solemn and impressive ceremonies, the most Rev. Archbishop Gibbons, of Baltimore, officiating as dedicator. He also delivered the dedicatory sermon which for chasteness, eloquence and force was pronounced a most masterly effort. The dedication was followed by the celebration of Pontifical high mass by Right Rev. Bishop J. J. Keane, of Richmond. Services lasted three and a half hours. At night confirmation was administered to eighty candidates by Bishop Keane, who also delivered a fine discourse.

Immense congregations attended both services. The church which will hereafter be known as the Church of the Holy Cross, is one of the finest in the State, with dimensions of a hundred and twenty by sixty feet, and cost $41,000 including grounds. The architecture is mainly gothic.

The Striking Cotton Operatives.

LONDON, September 15.—The number of cotton operatives on the strike at Ashton is estimated at from eight to eleven thousand. The streets are crowded by the unemployed operatives; but little excitement is manifested. Serious complications are also arising in the cotton industry at Preston. The operatives at the mills of Harrackses, Miller & Co. are expected to submit to five per cent. reduction in wages, notice of which was posted last week, but the operatives at the Sovereign mills have struck. The Preston Operatives' Association has issued a protest accusing some of the masters of exceeding the reduction mutually agreed on, and recommending the curtailment in production.

Wrestling Match.

DETROIT, September 14.—Whitney's Opera House was crowded last evening to witness the wrestling match, best two in three falls, between Colonel J. H. McLaughlin, of this city, and Thebaud Bauer, of New York. The first round, collar and elbow, was won by McLaughlin in three minutes. Second round, Graeco-Roman, was won by Bauer in twenty-seven minutes. Third round, catch as catch can, was won by McLaughlin in seven minutes.

A Missionary Indicted.

BOSTON, September 15.—The indictment against Demond, ex-treasurer of Massachusetts Home Missionary Society, is in six counts, and alleges embezzlement of six different sums of money on six different days in 1877-78, but contains no information as to what particular funds were embezzled. Demond is confident that he can show that he appropriated none of the money to his own use.

Trouble Among the Cotton Men.

LONDON, September 14.—At a meeting of the representatives of Linetid cotton manufacturing companies which was held at Oldham yesterday, a very strong feeling was manifested against the Liverpool cotton dealers, who are accused of raising the price of cotton by speculative maneuvers. A proposition for the establishment of a cotton buying, and yarn selling agency, independent of Liverpool and Manchester, was mooted.

Disturbances In Ireland.

LONDON, Sept. 15.—Serious disturbances occurred at Lurgan, Ireland, Saturday night arising out of the stabbing of a Catholic in a partisan affray. All the police in the town were called out and a conflict with the mob lasted some hours. Several arrests were made.

A Correction.

Correspondence New York Times.

RALEIGH, Sept. 12.—The deputies of Collector Young of this disuriet, captured a large illicit distillery last night in Moore county. In a dispatch of the 4th instance gross injustice was done the people of Anson county. The information contained therein, that there is a state of lawlessness and opposition to the revenue laws by organized bodies of men, should have been credited to Stanly, and not to Anson county. Prior to the forcible taking of the property from Deputy Collector Pennington last week the Anson people have usually obeyed the laws, and not given the revenue officers much trouble. The prosecution of the persons engaged in the forcible taking of the property from Pennington will be begun at once, the Government having employed special counsel for that purpose.

Goes a Long Way.

New York Herald.

In the first place the action at Syracuse shows courage, and courage makes almost any cause respectable. The Democrats have put themselves in a position where they can afford to be beaten and that is a good deal to say for them. It is more, in fact, than a great many Republicans would be willing to say of their own party at this moment, and it is one of those things which, when it can justly be said of a party, goes a long way toward securing its success.

Norwegian Vessels.

Wilmington Star, 14th.

More vessels from Norway than any other nationality are engaged in the foreign carrying trade from this port, a fact not to be wondered at perhaps, when it is known that Norway has the second largest mercantile fleet in the world, numbering, according to the latest maritime statistics of that kingdom, eight thousand and sixty-four vessels. The explanation of this curious phenomenon is that, in Norway, ship-building is the most common, if not the only form of investment. Instead of putting their money in a bank and leaving it to the banks to utilize, the inhabitants of a village or a parish or county pool together their savings and build or buy a ship. If situated on a fiord, the village builds the ships itself and places them under the command of its own sons; if situated further inland, it sends its shrewdest man with the money in a bag down to the coast to make a bargain. In extent Norway is a little more than twice as large as the State of North Carolina.

THE COTTON CROP.

MONTHLY REPORT OF THE DEPARTMENT OF AGRICULTURE.

A Lower Average for August than for the Previous Month---North Carolina 83 Against 86.

WASHINGTON, Sept. 15.—Following is the monthly report of the Department of Agriculture. Cotton returns to this Department on September 1st show a heavy decline during the month of August. The general average is eighty-five against ninety-one for the month previous. The following are State averages: North Carolina, eighty-three, loss of of three; South Carolina, eighty-one, loss of one; Georgia, eighty-two, loss of five; Florida, eighty-five, loss of two; Alabama, eighty-four, loss of sixteen; Mississippi, eighty-nine, loss of nine; Louisiana, eighty-seven, loss of two; Texas, sixty-six, loss of thirteen; Arkansas, ninety-nine, gain of three; Tennessee, one hundred and seven; gain of two. The condition as compared with last year is 5 per cent. lower and 1 per cent. lower than at the same time in 1877. The decline in Alabama and Mississippi is caused by too much rain causing rust, shedding bolls and insect injuries. In Texas the decline is caused from drought. The average condition of the whole tobacco crop on September 1st was eighty-seven, an advance of 10 per cent. from the condition on August 1st, and an advance of 6 per cent. over the condition at the same time last year. Massachusetts reports a gain during the month of nine; Pennsylvania, a gain of twelve; Maryland, of eleven; Virginia, fifteen; North Carolina, six; Tennessee, 17; Kentucky, six; Indiana, 11; while Connecticut, Ohio and Missouri show a loss of 5 per cent. each. The average condition for corn for the whole country on September 1st was ninety-five against ninty-three in August. It is somewhat better than last year at the same time.

With the exception of his coat, shoes and hat, none of his clothes had been removed. In his left hand he tightly clutched a goblet partly filled with chloroform. A sponge saturated with the same liquid was also in the glass. On the table there was a bottle of chloroform which held about half a pint. He had suffered from an abscess in his ear since he had the scarlet fever, and his brother expressed the opinion that it was to relieve pain from this cause and neuralgia that he used the chloroform. His friends say that they could conjecture no motive for suicide.

The City of Tokio may not arrive until next Sunday, though she may possibly put in an appearance as early as Wednesday.

Several citizens were riding the public road this morning, highly excited, by an attempt of Coleman Foster and others to run out a track of land under an old deed that would greatly disturb the title to lands in their peaceful possession for forty or fifty years. W. J. E.

PERSON.

ROXBORO, Sept. 12.—The corn crop will not be heavy; the tobacco crop is full, but late. Farmers are just getting well on the way of curing their tobacco. The probability is that much of the tobacco will be cut green to save it from frost.

The health of our people is good, a few chills in some sections, though I believe not as many as usual at this season. EQUITY.

[If our correspondent will look at the NEWS of the 5th instant he will see that his matter in relation to Mrs. Moon has already been published.—ED. NEWS.]

STANLY.

ALEXANDER, Sept. 12.—The weather is very cool; the thermometer stood sixty this morning. The farmers are very busy in their fodder fields and cotton patches.

The merchants are doing a good business.

Rev. W. W. Russell has been pastor of a church for two years. He says he has collected thirty-seven and a half cents for his services. How is that for a preacher.

There was a fight in town last Saturday night; one of the young men was lodged in jail.

The Rev. Ira T. Wyche is very low; not much hopes of his recovering. A good many of the merchants expect to start North in a few days to lay in their fall stock.

THE BATTLE OF NORTH POINT.

Survivors of the War of 1812 Celebrate the Day in Washington.

Washington Post, 13th.

The sixty-fifth anniversary of the battle of North Point was appropriately commemorated in Washington on Friday afternoon by the resident survivors of that memorable struggle. A reunion of the fourteen survivors of that battle now living in Washington was held at the residence of the venerable Edward Simms, Esq., No. 319 C street northwest, where a banquet, both material and intellectual, was spread and enjoyed. The gentlemen present, with the exception of Messrs. Henry W. Tilley, and John Brady, both of whom were confined to their homes, are the only survivors of "the Associated Survivors of the Soldiers of the War of 1812 of the District of Columbia," which was organized in Washington, June 18, 1855, with 155 members. The meeting was held punctually at 1 o'clock, and the assemblage of gray haired venerable warriors was a memorable sight, one not surpassed, and perhaps in mournful yet intense interest since the famous Jacobite gathering at Dumfries in 1798 of the living Lowland lairds and Highland chieftains who went out with and for "Prince Charlie" in the '15 and the '45. The banquet was superb, the appetites good, and the reminiscences evoked by the meeting as full of interest as the occasion could demand. The commemoration exercises opened with prayer by the Rev. W. C. Lipscomb, and Mr. James Lawrence, the secretary of the association since its formation, read a very interesting paper reciting the history of the association, its organization, and of the grand demonstration in Washington in 1846, on the occasion of the visit of the "Old Defenders" of Baltimore, who were received here in much state by President Polk and Mayor Seaton. The paper was discussed by all the members, and the services were long and pleasant throughout. The names and ages of the members present are as follows: Edward Simms, president, aged eighty-six years; Michael Caton, first vice-president, eighty-two years; William W. Caton, second vice-president, seventy-seven years; James A. Kennedy, treasurer, eighty-four years; James Lawrenson, secretary seventy-seven years; John B. Blake, surgeon, seventy-seven years; Francis B. Lord, eighty-eight years; John S. Anderson, eighty-three years, Seraphim Masi, seventy-eight years; Smith Minor, eighty-eight years; Rev. W. C. Lipscomb, eighty-seven years; John D. Clarke, marshal, eighty-eight years. Messrs. John Brady, aged eighty-seven and Henry W. Tilley, eighty-three years, were, unfortunately, not present, being confined to their homes. The association in Baltimore held a similar demonstration.

A Warning to Bolters.

New York World.

It is best for bolters to keep cool, lest they bolt their own heads, as Tammany did yesterday. It voted solidly in the morning for a resolution which indorsed every official act of Governor Robinson, and then bolted from the convention in the afternoon because it was about to carry out the meaning of that resolution by renominating Gov. Robinson. In fact, therefore, Tammany refused to renominate Governor Robinson because it had voted him a faithful Governor!

Will Not Have An Ovation.

Chicago Daily News.

The Southern negro will again begin his exodus in the fall, it is said. The cause is given as being his inability to longer endure the oppression of the Southern store-keeper and the Southern planter. So, it is the colored gentleman and his family are coming North with the false idea that he is to have an ovation, and that the men with whom he will deal are angels lingering on earth to shower blessings on him, then he will be greatly mistaken. If he emigrates he will have to fight for a living with a vigor of which he has not dreamed. He must be prepared to work like a white man, not like a negro.

Longevity.

Wilmington Star, 14th.

A correspondent sends us an item concerning a case of longevity in the person of Mrs. Mary Adkins, who died in Carver's Creek township, Bladen county, recently, at the age of 97 years. She was the widow of William Adkins, formerly of this city.

A BRIGHTER DAY.

EVIDENCES OF RETURNING PROSPERITY PRESENTED.

What the Secretary of the Treasury Says---Growth of Exports from the United States.

WASHINGTON, September 14.—The Secretary of the Treasury reports, as a sure evidence of returning prosperity, that six new national banks were started during the last month. He reports also that the banks which have been withdrawing circulation in preference to replacing their called bonds with the 4 per cents are beginning to again increase the amount of their circulation, there having been taken out last month $2,000,000. They find that business is increasing to such an extent that there is a great demand for money, and they can easily afford to take the 4 per cents at their present price in preference to curtailing the amount of their circulation.

There was a time when the export business of the United States was confined chiefly to the products of the Southern States—cotton, rice, sugar and tobacco. Now, although the amount of these commodities exported is greatly increased, they constitute only a small portion of the sum total that is annually shipped from the ports of this country. The most rapid growth has been in agricultural products. The amount of agricultural implements exported has been increased from $673,381 in 1868 to $2,574,998 in 1879. In 1868 we exported $733,395 worth of live animals, and last year the amount reached nearly $6,000,000. The amount of breadstuffs exported in 1868 was $69,000,000, while last year the amount reached $210,000,000. Formerly the great part of our cotton manufactures were made abroad and imported into this country, and such a thing as exporting cotton except in its raw state was never heard of. Now the amount of manufactured cotton exported has increased from $5,000,000 worth in 1863 to $15,000,000 in the last year. The amount of provisions exported has increased from $30,436,642 in 1868 to $123,556,232 in the last year. The exports of cotton have not increased. The product is no larger, if as large as it was ten years ago, and more of it is consumed in this country than formerly. In 1871 the exports of cotton amounted to $218,327,169, in 1873 to $227,243,069; in 1875 to $190,638,625; in 1877 to $171,118,508; and in 1879 to $161,196,178. The exporting of beef on the hoof has increased from $403,491 worth in 1871 to $3,393,200 worth in 1879.

BERATING THE GERMANS.

An Indignation Meeting in Newark---Who the Lawbreakers Are.

A large anti-German meeting was held Friday evening in Association hall, Newark, N. J. Rev. David Graves, in addressing the meeting, said the real motive at the bottom of the German demonstration last Monday in Newark was German infidelity. The Germans wanted the overthrow of our American institutions and laws. "My blood boiled in my veins" said he, "when I saw those infidels marching beneath the German flag. The stars and stripes had no place in their hearts. If our Irish fellow-citizens attempted to march beneath the Irish flag to the exclusion of the stars and stripes their procession would be annihilated before going one block. There were no Irish among the Germans. If the attempt of another such insult is made I will fight them until the last drop of blood is spilt in my veins. [Loud applause and cries of amen, amen.] The Germans pretended to be law-abiding, but they have been systematically breaking laws for several years, as testified to by their counsel, Samuel Kalloch, before the excise board."

THE CHISHOLM TRIAL.

The Case Forcibly Presented---A Verdict of Not Guilty.

DEKALB, Miss., Sept. 12.—The court which is trying the case of the State against Henry J. Gully, for the murder of Cornelia Chisholm, having adjourned at 6 o'clock yesterday afternoon, after the argument of the defense was closed, that the sick juryman might not become too much fatigued, convened at 9 o'clock this morning. The juryman alluded to is fifty-seven years of age, and being unable to sit up was this morning provided with a comfortable bed, where he lay during the concluding argument of Judge Morris on the part of the prosecution.

Judge Morris' argument was to the effect that a conspiracy was formed to kill Chisholm and Gilmer. In order to carry out this design the conspirators had an affidavit made before a magistrate charging Chisholm, Gilmer, Rosenbaum and Hopper with having murdered or aided and abetted in the murder of John W. Gully a few days previous. That the object of this step was to disarm the victims, Chisholm and Gilmer, and thus place them in such a condition that they could not defend themselves nor be defended by their staunch friends, Rosenbaum and Hopper, the only men most likely to stand by them and defend them. That the sole cause of the imprisonment of these four men was that the conspirators could more easily and with less danger to themselves, take the lives of Chisholm and Gilmer. The principal facts of the case heretofore related were then gone over. The theory of the defense that these men all came to town armed simply to assist the sheriff in the arrest of the parties charged with the murder of John Gully was then considered. Judge Morris closed his argument for the State at 10:30 o'clock this morning. The case was then given to the jury, and within less than half an hour they returned with a verdict of not guilty.

The Secrest Case.

Charlotte Observer, 15th.

The case of H. C. Secrest, charged and once convicted of the murder of his wife and child, will be called in McDowell county Superior Court which begins Monday, 22d. It will be remembered that Secrest was convicted in McDowell county last October, the case having been moved from Burke, and that the Supreme Court, to which an appeal was taken, granted a new trial, confessedly on technical grounds. The case comes up now in regular course on the docket, but having been once tried in McDowell, it is generally presumed that a removal will be asked for. It is said that some of the witnesses in this county are relying so confidently on the removal that they will not go to Marion. It has been over eighteen months since the bodies of the woman and child were unearthed by dogs in the woods just above Hickory; and they had lain in the ground until the flesh had rotted from the bones.

ANOTHER DISTORTED CASE.

What a Correspondent tells of the Murder of Negroes.

Washington Republican, 13th.

The murder of colored people in the South is being constantly perpetrated, and yet no knowledge of the fact is telegraphed to the North; neither do the people there communicate information of that character through the mails, for fear of being murdered for the offense. The *National Republican* yesterday received a letter dated Williamsboro, N. C., July 23, 1879, and which reached here yesterday by private hands. This letter contains particulars of one attempted and one successful murder, the first at Sassafrass Fork, Granville county, in that State, early in July, and the other on the 13th of the same month, near Williamsboro. The first was the attempted murder of a colored woman, Sarah Barnett, who lived in the family of a white man named William Pines. It is stated that Pines' wife struck Sarah with a stick, and she struck back with her hands, whereupon Pines seized his revolver and shot the colored woman through the shoulder, the ball passing through and coming out on the other side. Thus wounded and bathed in her own blood the woman was arrested and taken to Oxford jail, and there tried before a magistrate, who fined her $10 for striking a white woman, and as she could not pay the fine she was sent to jail. Nothing, however, was done with the white man for shooting her, nor to his wife for beating her with a stick. The colored woman has been sent to the poor house in her crippled condition, to work out her term of imprisonment in the midst of suffering, and probably at the expense of her life. This is North Carolina justice when a negro is in the case.

The other case was a cold-blooded, deliberate murder of a colored man near Williamsboro, under the following circumstances: Sam Valentine, colored, entered a school house between Williamsboro and Midway, to shelter himself from a rain storm, and while there fell asleep. Two white men named Ira Hart and Jesse Kelly, discovered Valentine sleeping there and entered the school house and shot him through the head, causing instant death. It now appears that these men had mistaken Valentine for another colored man named Edward Yancey, whose wife Hart had taken possession of. Yancey had accused him of interfering with his domestic affairs. Hart then seized his gun and went in pursuit of him, he having left. While pursuing him, Valentine was discovered, and killed as described above. Yancey dared not return to his home for fear of being killed, knowing that the law afforded him no protection. Hart was taken before a magistrate, a mock trial was held, and he was acquitted, for the reason that he had killed the wrong man. This is another instance of North Carolina justice in the case of murdering a negro. Is this a civilized country?

How the Geese Departed.

Monroe Enquirer, 13th.

It is a remarkable fact, vouched for by a witness by no means "windy," that during the severe storm which prevailed here last Monday, a flock of geese near the Stewart House were literally lifted from the ground, and hurried upon the wings of the wind rapidly out of sight, and as we have reports from different sections of the severity and extensiveness of the storm, and as no tidings have been received from these unfortunate geese it is supposed by our informant that they are still driving before this rude tempest into some far-off land, and with the same velocity he saw them swept from view. Sad, sad casualty.

Money in Turpentine.

Wilmington Review.

It is said that, according to the low prices of spirits and rosin, there is no money in the turpentine business now, and has not been for several years. Yet we happen to know of one gentleman, a turpentine man who has farms in North Carolina, South Carolina and Georgia, who made $10,000 last year on turpentine, and in one year since the close of the war he made $32,000 clear in this business. He is a man who gives a close personal and practical attention to the receipts as well as to the disbursements of his business, and therein may lie the secret of his success.

Will not Hang.

Governor Jarvis has commuted the sentence of Alexander M. Bradwell white, and Thomas Roseberry colored, who were to have been hanged at Statesville next Friday for burglary, to life imprisonment in the penitentiary, and the Charlotte *Observer* of Sunday says:

"These prisoners were tried at the last spring term of Iredell court, convicted and sentenced to be hanged on the 22d of August. Governor Jarvis, however, respited them until the 19th of September, and they would therefore have been hanged next Friday but for the commutation. The crime with which they stood charged was committed on the night of the 16th of May last, upon the residence of Nicholas Stikeleather, a citizen of Iredell, living about six miles from Statesville.

Bradwell is a son of Dr. Bradwell, the proprietor of the St. Charles Hotel at Statesville. He is about 40 years old, has a wife and two or three children, is an opium-eater and is regarded as weak-minded. The negro is entirely ignorant, and before this event was not regarded as at all vicious.

The presiding judge and the solicitor who prosecuted the case each addressed a letter to the Governor urging upon him the commutation of the sentence of death, and all the jury and nearly all the citizens of Statesville signed a petition to the same effect."

AN INSIDE VIEW.

THE "TIMES" CORRESPONDENT ON GOVERNOR JARVIS.

The Trouble he had in Filling a Judgeship—A System of Electioneering that did not Succeed.

Raleigh Correspondence New York Times.

RALEIGH, N. C., September 12.—There is a fresh row in the Democratic camp. Governor Jarvis is in great trouble. In order to pay a debt of gratitude incurred at the time when Jarvis was nominated for Lieutenant-Governor, the Judgeship made vacant by the death of Judge Kerr, was tendered by Governor Jarvis to the Hon. John Manning, of Chatham county. In due time a letter was received by the Governor from Mr. Manning, accepting the office, and giving six different reasons therefor; but, desiring to exhibit his disinterested friendship for the Governor and his patriotism as a Democrat, Mr. Manning, as rumor has it, added a postcript to his letter of acceptance, in which he said that if the cause of justice and the success of the Jarvis administration could be better subserved by the appointment of some other person, he would relieve Governor Jarvis from the tender made to him. This was a tub thrown to the whale, but the whale swallowed it. Strange to say, upon reflection Governor Jarvis thought the cause of justice and his fight for the nomination next year could be better subserved by not appointing Mr. Manning, and on Wednesday last John A. Gilmer was appointed Judge. It now turns out that the debt of gratitude which Manning thought still unpaid, was regarded by Jarvis as having been fully satisfied by the tender to Manning, some months ago, of the office of Secretary of State. The mortification of Manning is extreme, and his backers are loud in their denunciation of the slight that has thus been put upon him by the man whom he helped make Governor. J. I. Scales, of Greensboro, an applicant for the Judgeship, is greatly chagrined that he was not appointed. The Scales influence is now against Jarvis, and Congressman Alfred M. Scales has entered the field against Jarvis for the Gubernatorial nomination next year. Consequently, Jarvis feels that he has failed to strengthen himself with his party, and Cox, Fowle, and Merrimon, all aspirants for the nomination of Governor, are laughing in their sleeves and enjoying the unexpected discomfiture of Manning and the pitiable condition of Governor Jarvis. Meanwhile, Gilmer's friends are open in the assertion that they have not been brought over to Jarvis by the appointment of their friend, but that they are free to support whom they please for Governor next year. In order to heal the wound inflicted upon Manning, his son has been appointed Bond Clerk in the Treasury by Governor Jarvis, in direct opposition to the pretended retrenchment and economy.

Donations to the North Carolina Agricultural Society.

The following are donations for the 19th Annual State Fair, October 13th, 14th, 15th, 16th, 17th and 18th, acknowledged by C. B. Denson, Secretary, in behalf of the Executive Committee.

One half ton (six bags) Navassa guano, $22.50, given by the Navassa Guano Company, Donald McRae, secretary and treasurer, Wilmington, N. C. It is unnecessary to tell the farmers of North Carolina that this is a favorite and most valuable fertilizer. While purchasing a good and reliable article, they also aid in building up home industry. We should be glad to see the bands of commercial intercourse strengthen between Wilmington and the upper Cape Fear, in fact throughout our entire section. It would no doubt be to the advantage of the enterprisein men of that city to look more carefully to their representation at the State Fair, If there is money in it for Baltimore, New York, Richmond or Norfolk, why not for our own seaport of Wilmington? This is the third year that we have received the liberal courtesy of the Navassa Company.

One thousand best hard-pressed brick, $10; one thousand salmon brick, $8, given by Joel D. Whitaker, Esq., of Raleigh. Mr. Whitaker is ready to supply these brick at the lowest market rates to builders and others. The example of his contribution may be followed with profit by others. We are always glad to call attention to home enterprise.

Fifty paper boxes for milliners' use, given by J. B. Whitaker, Jr., manufacturer, Durham, N. C. This is a novel industry in North Carolina. Mr. Whitaker manufactures very largely paper boxes for the tobacco trade. These are enveloped in cloth and used to save heavy freights in long distances. The boxes for milliners' use are equally good with those supplied by Northern houses, and are really cheaper in price, on account of the great saving in freight, as they are bulky to transport.

Templeton's Pinafore.

A large and fashionable audience assembled at Tucker Hall Saturday evening to witness the presentation of this popular opera by the Templeton Star Alliance Opera Company. They expected a treat, nor were they disappointed. Fay Templeton as "Ralph Rackstraw" was greatly admired and received several bouquets. Alice Vane as "Little Buttercup" soon captivated the audience, and to say that she had lost none of her power or attractions as an actress is the most fitting and highest compliment that can be paid her. Mr. Harry Buckley (who by the way is a North Corolinian) did things up in the most "official style imaginable and Sir Joseph Porter, K. C. B. need have no fear that the dignity of his position as "ruler of the Queen's navee" will ever suffer while his character is in the hands of Mr. Buckley. Mr. Seth M. Crane, "Dick Deadeye," has a splendid conception of the character he represents and made a decided hit, while Mrs. Isabel Fuller, "*nee* Vane," is a veritable "ancient aunt" and she and Mr. Fuller can shuffle the light fantastic toe to an imaginable degree. "Cousin Hebe" is a charming cousin for one to have, and little lady Lee has got the "customary attitude" down pat. In fact the characters were well conceived and the play a success.

[Through an error committed in making up Sunday's paper this was overlooked.]

Worthless Stuff.

Not so fast my friend; if you could see the strong, healthy, blooming men, women and children that have been raised from beds of sickness, suffering and almost death, by the use of Hop Bitters, you would say "Glorious and invaluable remedy." See another column.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

TUESDAY, - SEPTEMBER 16, 1879.

TWINKLE, twinkle, little *Star*,
How I wonder where you are?
S. J. T.

MR. HOWARD, of the New York *Star*, seems to be dazed. He seems not to understand how things are going.

TAMMANY'S bolt at Syracuse will prove to be its last. It will never have another chance. Ignored on the State committee it sinks into nothingness.

THE Brooklyn *Eagle* says that William A. Wheeler had succeded in making himself sufficiently obscure before he extinguished himself at Saratoga.

IT is pretty certain that the Maine Republicans have not elected their candidate for Governor by the popular vote, and it is by no means certain that they can elect him by the vote of the Legislature.

APPLICATION has been made to Chief Justice Waite for writs of *habeas corpus* in the cases of several persons convicted for violation of the Federal Election laws at Baltimore, for the purpose of testing the constitutionality of those enactments.

MR. KELLY hopes by indorsing the regular nominations with the exception of the nominee for Governor to strengthen himself. The fight has now become personal instead of general, and the shrewder politician at the head of the party in the State will win.

THE statement recently made in some of the Northern papers that a majority of the Southern politicians visiting the White Sulphur Springs this summer were pronounced in favor of Tilden, is declared to be erroneous by a prominent Southern journalist, who is known to have an extensive acquaintance with political leaders in the South.—*Rochester (N. Y.) Morning Herald.*

This may be so. We are well aware there has been a strong feeling against the nomination of Mr. Tilden, Mr. Bayard or General Hancock being proferable; but the indications at present are that Mr. Tilden is considered to be the only man that the Democracy can unite on, and therefore he is really the strongest man in the South to-day. Papers that were strongly pronounced against him a few weeks ago recognize this fact and are preparing to indorse his claims.

IN our news columns will be found an article from the New York *Times* which states that gross injustice was done to Anson county, in this State, in a previous article. This is not the first time that sections of the State have suffered injustice from residents furnishing correspondence relating to home affairs to foreign papers, as another article from the Washington *Republican* of Saturday will show. The latter article was a long way from the truth—a deliberate perversion of the facts—and the writer knew it. The *Republican* states that the Valentine case was not telegraphed North. That may be so; but who is to pay the company's charges on every matter that is sent North? The killing of Valentine was published in every paper in the State and was condensed by the Northern press into a news item and so appeared. There was a negro woman killed in Washington a short time since, but the NEWS did not deem it worth while to expend two columns of space on the subject, or class the people of that city as a set of murderers. Let the editor of the *Republican* read the NEWS and he will see exactly how many murders are being committed in North Carolina, and also how many criminals suffer capital punisnment.

THE CHISHOLM CASE.

This celebrated case has at last come to an end as far as one of the alleged murderers is concerned, the jury having brought in a verdict of not guilty as to Henry J. Gully, charged with the murder of Cornelia Chisholm.

The Chisholm "massacre," as it has been termed by the New York *Tribune*, occurred in 1877; and the history of the case, the "massacre" being simply the culmination of a vendetta is as follows: Several years ago, Benjamin Rashe, a white Republican, fired at and missed John W. Gully, a Democrat, but hit and killed his brother, Samuel Gully. John then returned the fire, giving Rashe a dangerous wound, from which he, however recovered. On April 25, 1877, John W. Gully was assassinated by an unknown hand. Two colored men testified that Benjamin Rashe, instigated by Judge Chisholm, his son and three men named Gilmer, Rosenbaum and Hoffer (all white Republicans), committed the murder. Chisholm and son were arrested, and Mrs. Chisholm and daughter insisted on sharing their confinement. In a few days Gilmer, one of the alleged conspirators against Gully's life, was arrested, but was taken from the officers by a mob of lynchers and killed. The mob then attacked the jail overpowering the jailer, mortally wounded Judge Chisholm, and killed his son. During the fight Miss Chisholm shot and killed Dr. Kassar, one of the lynchers, and Mrs. Chisholm severely wounded a son of the assassinated J. W. Gully. Miss Chisholm was herself wounded and subsequently died.

During the trial just ended everything, according to the reports, seems to have been conducted with exceeding fairness; the prosecution was ably conducted, but the State failed to produce evidence that would warrant conviction. Even the *Tribune*, while publishing the telegraph dispatch announcing the acquittal, makes no editorial comments on the matter. It has remarked, though, on several occasions that the result would be as announced on Saturday stating that no fair trial would be held. By what authority (but the unbridled license of an unscrupulous writer) such a statement is made is unascertained; the killing of Judge Chisholm should no more be classed as the inevitable result of a political canvass than the shooting of Kalloch by DeYoung, or the killing of the Scannells in New York several years ago.

Crimes—murder, arson, rape, burglary, etc.—are common in each and every State, and no political significance attaches thereto, if they are committed in the North. But let them happen in the South and they are always sure to be classed as Democratic barbarities. The Chisholm murder and the Dixon killing have furnished any quantity of matter to be perverted into a political howl; but the rebellion of the Socialists of Chicago against the State of Illinois seems to attract no attention outside of that city; yet these same socialists, acting as militia companies and carrying arms without any authority from Governor Cullom and against the laws of that State, fire on a crowd at a picnic and kill and wound several persons—and no one is responsible for the action. Had such a thing happened in the South a "new rebellion" would have been heralded abroad.

It is time for these criminations and recriminations to stop. Each State is manifestly able to take care of its criminals. And in the South when a man is convicted after a fair trial he suffers the penalty. To be sure handsome bouquets are not showered upon him, as was the case with Cox, the murderer of Mrs. Hull; neither do refined women shed tears of commiseration for a criminal who showed no mercy to his victim. He is *punished*. In this State white and black alike suffer the penalty of the law.

The New York Democratic Convention.

Baltimore Sun.

In renominating Lucius Robinson for another term as Governor of New York the Democracy of that State have not only paid a signal tribute to the honesty and ability with which Governor Robinson has administered the duties of that great office, but have taught a lesson of firmness to the Democrats of other States in refusing to succumb to the dictation of a political clique. It required courage of no common order to disregard the seventy-two votes that Tammany brought into the convention, and to do what they believed to be right in spite of the declaration of the chiefs of Tammany that if Robinson were nominated neither they nor their followers would vote for him at the polls. If the opposition of Tammany to Governor Robinson had been based upon principle, the secession of its delegates from the convention and their nomination of John Kelly or any other man for Governer to antagonize Robinson would have entitled them to at least some degree of respect. But the quarrel was simply personal. Governor Robinson declined to put certain men in office at the demand of Tammany, and put certain other men out of office against the protests of Tammany. This, judging from the charges launched against him in the Tammany manifesto, appears to be the head and front of his offending. He seems to have preferred what he considered the good of the State and of the party he represents to the claims of Tammany. The verdict passed upon this question by all the Democratic delegates at the Syracuse convention, with the exception of those that Tammany had chosen to represent New York city, by the renomination of Governor Robinson, is that he was clearly right, and the example they have set of refusing to submit to the dictation of Tammany is one that might be followed to advantage in other places where political rings undertake to govern the party and divide among themselves the spoils.

Kings County at Syracuse.

New York Graphic.

The fidelity of the Kings County delegation to the fortunes of Tilden and Robinson is something remarkable even in the history of Democratic politics. On two different occasions in the Syracuse Convention the members of that delegation had the opportunity of naming one of their own fellow citizens as the Democratic candidate for Governor. "Boss" McLaughlin, for himself and his followers, each time refused the proffered crown. The thirty-six votes of Kings county were the balance of power. If Kings county joined with Tammany, Tammany would carry the convention. If it remained with Robinson, Tammany would be beaten and Robinson renominated. Slocum was distasteful to the leader of the Brooklyn Democracy. It was no sacrifice to reject the overtures of Tammany Hall, based on his nomination. But with Jacobs the case was very different. The Senator is on the best of terms with the Kings county leaders. He would "listen to reason," in fact, would do just what the leaders wanted. And yet the Kings county delegation refused the bait. Its members declined to be traitors even if by so doing they could seat their own man in the executive chair at Albany. They were right. Had they done Kelly's bidding in one regard he would have asked them to do it in all.

Colonel Keogh's Denial.

Baltimore Sun, 12th.

Colonel Thomas B. Keogh, the chairman of the Republican State Central Committee of North Carolina, is in the city. He denies the statement made by Judge Tourgee, in a published interview, giving his reasons for leaving North Carolina after a residence there of fourteen years, that he (Keogh) was about to give up his residence in that State on account of the ostracism of himself and family for political reasons. Colonel Keogh says that he settled in in North Carolina directly after the war, and has been living there ever since, and that he has no intention of leaving. He finds no difficulty in getting along quietly and peaceably with his neighbors except in the matter of politics, and people fight the country over about politics, so that in North Carolina it is no exception.

THE CENSUS.

The Post office Department has decided that postmasters may be appointed supervisors of the census. This decision is opposite to an idea prevailing in the Interior Department, that postmasters cannot hold the office named.

Tilden in the West.

Omaha Herald.

Mr. Tilden is strong with the people everywhere. Mr. Jacob Williams, ex-editor of the *Council Bluffs Globe*, was in Omaha a day or two ago, and he said Iowa was strong and solid for Tilden. So it is in other States. We shall not speak of our State which led the column for Tilden so handsomely in 1876. If the editor of the *Herald* were for somebody besides Mr. Tilden for renomination, it is our very decided opinion that Nebraska would be substantially unanimous for the distinguished statesman who led us to victory through the terrible campaign of that year.

The Tax Receipt a Campaign Document.

Brooklyn Eagle.

The voters of this State will be furnished by the Republican managers with copies of all sorts of documents, but the balance sheet of the State and the tax bill of the individual property owner must be kept out of sight, if Governor Robinson's re-election is to be prevented. For once in this State the tax receipt is a campaign document, and Lucius Robinson's claim to popular favor is stamped upon it.

They are backed by the members of the Cigar-Makers' Union, all of whom have deposited the funds required by their laws in such cases for the benefit of the strikers while out of work. It is stated that similar action may be expected on the part of cigar-makers employed in other factories where union wages are not paid for *all* kinds of work.

The Best Evidence.

Church, Natick, Mass., will be read with interest by many physicians; also those suffering from the same disease as afflicted the son of the Rev. E. S. Best. No person can doubt this testimony, as there is no doubt about the curative powers of Vegetine.

NATICK, MASS., Jan. 1, 1874.

MR. H. R. STEVENS:

Dear Sir, We have good reason for regarding your Vegetine a medicine of the greatest value. We feel assured that it has been the means of saving our son's life. He is now seventeen years of age. For the last two years he has suffered from necrosis of his leg, caused by scrofulous affection, and was so far reduced that nearly all who saw him thought his recovery impossible. A council of able physicians could give us but the faintest hope of his ever rallying; two of the number declaring that he was beyond the reach of human remedies, that even amputation could not save him, as he had not vigor enough to endure the operation. Just then we commenced giving him Vegetine, and from that time to the present he has been continuously improving. He has lately resumed his studies, thrown away his crutches and cane, and walks about cheerfully and strong.

Though there is still some discharge from the opening where the limb was lanced, we have the fullest confidence that in a little time he will be perfectly cured.

He has taken about three dozen bottles of Vegetine, but lately uses but little, as he declares that he is too well to be taking medicine.

Respectfully yours,
E. S. BEST,
MRS. L. C. F. BEST.

GOSSIP FOR THE LADIES.

The Same Old Story.

She read until she could not see—
Did "Ivanhoe" e'er weary?
Then dropped the book upon her knee,
And said her life was dreary.
"From day to day I still must tread
The same dull round of duty—
Of darning socks and baking bread,
Without one glimpse of beauty.
From week to week my landmarks are,
A sermon dull on Sunday;
On Friday night the Plumville *Star;*
The weekly wash on Monday.
And O there's never a line of grace,
And never a hint of glory,"
She sighed and lengthened her pretty face—
"It's always the same old story!"

She dried her eyes and curled her hair,
And went to the conference meeting,
From the garden-gate to the vestry stair,
The self-same words repeating.
At last the final hym was sung,
And all the prayers were ended,
When one from the door-way crowd among
Her homeward steps attended.
They left at length the village-street,
And sprang the low wall over,
To cross through Captain Peaslee's wheat
And Deacon Bascombe's clover.
The moon seemed shining overhead
To flood their path with glory;
They whispered low, but what they said
Was—only the same old story!

An Oswego woman fell out of a fourth story window, the other day, and the first thing she did after being brought to her senses was to wish she had on her new silk hose instead of those old cotton stockings.

Fat cook (with unconscious blushes to the lady who wants to engage her)—"As to there bein' no followers allowed, mum, you might recollect as you've been single yourself; and a girl as is rather showy in figure can't well help 'em comin' about."

It is because women have greater tact than men that they prove the most influential teachers. They have more self-restraint than men and are naturally more gracious and polite. In matters of social detail, aptness and dexterity come to them like nature; and hence well-mannered men usually receive their best culture by mixing in the society of gentle and adroit women. —*Samuel Smiles.*

He was told to remain after school, when the teacher, trying to impress upon his youthful mind the sinfulness of not speaking the truth, asked him if they did not tell him, in the Sunday school, where bad boys went who told falsehoods. Choking with sobs he said: "Yes, ma'am; it's a place where there is fire, but I don't just remember the name of the town."

MR. EDITOR: Some time ago I noticed in your paper, I think, a paragraph stating that a girl who but a few days before had weighed one hundred and sixty-seven pounds then weighed only one hundred and three. If you know the recipe by which she reduced her weight, and think it safe, will you kindly publish it, and oblige one who is growing distressingly fleshy? Respectfully, BERTIE. Yes, we know it, Bertie; but, as you seem to be a Louisville girl, it will probably do you no good. The girl in question was a fair New England lass, who accidently had her feet clipped off by a buzz saw.—*Louisville Courier-Journal.*

Beautifiers.

Ladies, you cannot make fair skin, rosy cheeks and sparkling eyes With all the cosmetics of France, or beautifiers of the world, while in poor health, and nothing will give you such good health, strength, buoyant spirits and beauty as Hop Bitters. A trial is certain proof. See another column.

"Silence in Court," cried the Judge, "until I can pronounce Blackwell's Fragrant Durham Bull Smoking Tobacco the very best Smoking Tobacco. Always reliable, uniform in quality, full weight, never bites the tongue, and as sweet as the rose."

Cuticura

REMEDIES

Have speedily and permanently cured Humors of the Skin and Scalp of Children and Infants afflicted since birth.

The treatment prescribed in such cases is mild doses of the CUTICURA RESOLVENT, a perfectly safe yet powerful blood purifier, and the external use of CUTICURA, the great skin cure. The CUTICURA SOAP should be the only soap applied to the diseased skin for cleansing purposes.

Humor on a Child

Since Birth Cured, after faithful Medical Treatment had failed.

Messrs. WEEKS & POTTER: Gentlemen, My little son, two years of age, has had a humor on one side of his face since he was born, which during the last four months has spread over the entire side of the face, the child ear, and side of the head. It must have itched and irritated him a great deal, as he scratched the surface all the time, no matter what was applied. I used many remedies by advice of friends and my physician without benefit until I found CUTICURA, which immediately allayed the itching and inflammation, and entirely cured him. Respectfully, JOHN L. SURRY. With Walworth Manufacturing Co.

BOSTON, April 15, 1878.

NOTE. Once cured, the skin may be rendered soft and fair by using the Cuticura Soap exclusively for toilet or nursery purposes.

CHILDREN AND INFANTS.

More Cures of Skin and Scalp Affections by the Cuticura Remedies.

Fred. Rohrer, Esq., Cashier Stock Growers' National Bank, Pueblo, Colo ado, writes: "I am so well pleased with its effects on my baby, that I cannot afford to be without it in my house. It is a wonderful cure, and is bound to become very popular as soon as its virtues are known to the masses."

J. S. Weeks, Esq., Town Treasurer, St. Albans, Vt., says in a letter dated May 28: "It works to a charm on my baby's face and head. Cured the head entirely, and has nearly cleaned the face of sores. I have recommend it to several, and Dr. Plaat has ordered it for them."

M. M. Chick, Esq., 41 Franklin St., Boston, says: "My little daughter, eighteen months old, has what the doctors call Eczema. We have tried 'most everything, and at last have used CUTICURA, and she is almost a new child, and we feel very happy."

Prickly Heat.

Incidental to the Texan Climate.

Messrs. WEEKS & POTTER: Gentlemen.—Enclosed please find one dollar for a large box of CUTICURA. The small one that I received some time ago has been very efficacious, especially in Prickly Heat or Rash, as some people call it. I am nolsing it about.

Yours truly, THOMAS W. BUCKLEY.

MASON, Texas, Sept. 22, 1878.

CUTICURA is a most valuable external application. It heals all cuts, bruises, and abrasions of the skin, restores the hair when destroyed by scalp diseases, removes dandruff and keeps the scalp clean and the hair soft and pliable. It is as agreeable as it is effective, and is ably assisted, in every case by the CUTICURA SOAP, which is particularly recommended to mothers for cleansing the skin and scalp of infants and children. It is Toilet as well as Medicinal, and is the most fragrant and refreshing Soap for the nursery and bath of any these prepared.

Parents have our assurance that these remedies contain nothing injurious to the youngest infant, evidence of which may be found in the certificates of Dr. Hayes and Prof. Merrick accompanying each remedy.

The CUTICURA REMEDIES are prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and are for sale by all Druggists. Price of Cuticura, small boxes, 50 cents; large boxes $1. Resolvent, $1 per bottle. Cuticura Soap, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

Fever and Ague is most common in the spring, but most severe in the fall and winter. Add to this its value as a stomachic and anti-bilious agent, and who will venture to gainsay its claims to the first place among family medicines.

—Mr. L. R. Wyatt, an experienced and successful business man has returned from the North, after purchasing a fall stock of heavy groceries at cash prices which he is offering at specially low figures. He will make the consignment of cotton a specialty as usual, and makes liberal advances whenever desired.

—Mr. William Woollcott is now receiving his fall stock of dry goods, clothing, notions, etc. His trade has increased so much within the past twelve months that he has been compelled to enlarge his facilities. He has worked up an extensive jobbing trade in connection with his well established retail business and is now selling to quite a number of merchants at prices more favorable than can be had by going north. "Woollcott's Open Front" is one of the features of Raleigh.

—Madame Besson leaves to-day for New York, to lay in her stock of fall and winter clothing for ladies and children. Madame Besson recently opened this new feature in the Raleigh trade, and during the ten or twelve months that she has carried on the business has deservedly met with a good patronage. Parties can always find ladies and children's under-clothing, hosiery, etc., at this establishment, corner Martin and Salisbury streets.

Maj. W. H. Green, of Richmond, superintendent of the Richmond and Danville railroad, is at the National hotel.

Mr. P. C. Hicks, of New York, is at the National hotel.

List Your Taxes.

Under the head of "New Advertisements" will be found a notification to all concerned to list their city taxes. Persons have been given further time to do this owing to the complications of the new law, but this is the last call, and those failing to comply will be presented for indictment.

Unmailable Letters.

The following letters remain dead in the postoffice at this place for the reasons assigned:

Mrs. Nettie Thomas, Runson's Bridge, N. C., no stamp; Mrs. Margarett Hayzel, New Berne, N. C., no stamp; Rev. H. Lynch, Arcola, Warren county, N C., no stamp.

Abstract of Taxes.

John R. Patterson, clerk of the board of commissioners of Cabarrus county, fixes returns of taxables to the State Auditor as follows:

General taxes,	$ 2,725.33
Special taxes,	2,688.66
School taxes,	3,649.62
County taxes,	12,925.31

Police Court.

Thomas Hill (black) was before His Honor, the Mayor, yesterday, charged with assault and battery. It seems that Thomas stoned his step-father's house to such a degree that it became dangerous for the old man to abide there. Tom didn't have $5 and costs, so he now languisheth in the county jail, where he will leisurely consider the propriety of rocking houses.

The case against Reuben Hodge for disorderly conduct, was continued until Thursday.

Messrs. M. T. Leach & Co.

It is a pleasure to call attention to the new advertisement of this well-known and thoroughly established house. The name of M. T. Leach is numbered among the old and skilled merchants of this city, and it has lost nothing by adding to it the name of his popular brother, Mr. G. E. Leach. The firm of M. T. Leach & Co are large wholesale dealers in groceries, and transact a heavy business in cotton. They have all the advantages of ample cash capital, and buy on the closest margin. The merchant or farmer who deals with this house may always rely on fair treatment in every respect. This is about all that can be said for any business firm.

Go away from Home to get Home News, etc.

The Charleston *News and Courier* says: "A Raleigh dispatch states that a systematic attempt by large owners of tobacco in North Carolina to defraud the revenue has been detected by government officers. Two factories at Raleigh have been seized and seven large dealers in leaf tobacco placed under bonds. The chief devices of the scheme were the double use of stamps and the neglect to keep books showing the amount of leaf tobacco used."

The "government officers" here don't seem to know anything about this. Those "two factories at Raleigh" must be our prospective tobacco warehouses, but it looks hard to "seize" them before they assume a tangible form.

Board of Aldermen.

Board met last night pursuant to adjournment. Quorum present. Mayor Manly presiding.

A communication from Messrs. Mason & Devereaux, attorneys for Patterson, proposing a compromise of the suit *vs.* the city, for the sum of one hundred and fifty dollars to the plaintiff, and $40 to Dr. E. B. Haywood and the costs of the suit, was referred to the city attorney.

Applications for a pump from J. T. Jones and others, on South street, was granted, and the Street Committee instructed to have the work done.

Application for a pump at the corner of Harrington and Lane streets, was referred to the Street Commissioner with power to act.

A deed from John Devereaux and wife, and T. P. Devereaux, trustee, to certain streets, was referred to the city attorney.

The Board then adjourned.

Who's Colonel Gray?

The Washington *Star*, in an article headed "Bad news for those who take 'peach and honey' in 'theirn,'" says:

"Colonel Gray, collector of the fourth North Carolina district, telegraphs to Commissioner Raum to-day that the fruit crop in that section this year is an entire failure. In consequence of this but little peach brandy will be manufactured, and as a sequence whisky will take its place. For these reasons he anticipates an active renewal of operations by the moonshiners in the manufacture of illicit whisky."

Truly the revenue reports are becoming slightly "mixed," or perhaps that reporter had taken too much of that peach and honey in "his'n." You need not make a hog of yourself, it won't be much higher if the fruit crop is short, and besides if you take too much on very often now you won't live to appreciate it when it's scarce.

How to Grow Fat.

Just now when so many fat people are trying to grow lean, we would suggest that it would be a good idea for the lean ones to try and grow fat. To do this keep the bowels and liver regulated with Mott's Liver Pills, and your digestion will be good, and you will grow fat rapidly.

BOVINE, MISSISSIPPI, April 22, 1879.—The following correspondence will explain itself: A. WADDILL, ESQ., LYNCHBURG, VA.—Dear Sir: Observing a certificate from you in reference to the "Iron and Alum Mass," of the Seven Springs, in Washington county, Va., in relation to its efficacy for Liver Diseases, would you have the kindness to inform me whether you used the "Mass" or the "Water;" also, a description of the symptoms and such other information as you may deem pertinent. I am a long-time sufferer with Liver Complaint, and naturally feel very anxious on the subject of a remedy that will afford me even temporary relief. Your early reply will greatly oblige, very respectfully,
WILLIAM BARR.

LYNCHBURG, Va., May 12, 1879.—WM. BARR, Esq., Bovine, Mississippi—Dear Sir: Your inquiry in regard to the "Liver case" which was effectually cured in my family from using the "Seven Springs Mass," is before me. The case referred to in my certificate was that of my wife's sister, who is now in her 80th year, and has been a member of my family for the last 27 years. She had been afflicted with Liver Disease for 30 years, sometimes almost dying with pains in the back, breast, and heaviness of the chest, heart-burns (intensely), sick stomach, vomiting, &c. I procured a few bottles of the "Mass" for her, and very soon after she began the use of it, her health commenced to get better, and she continued steadily to improve, and at this writing, so old, seemingly in as good health as a person who had never been afflicted with these diseases. She attributes her cure entirely to the efficacy of the "Seven Springs Mass." I regard it one of the greatest family medicines we have access to, not only for such diseases as above indicated, but for various other complaints for which it is recommended. Hoping these answers satisfactory, I am, very truly, A. WADDILL, Proprietor Lynchburg News.
